

Photoshop CS5: Level 1, ACE Edition + Certblaster

Publisher: CourseILT
Code: 1426021844
ISBN: 1426021884
Course Length: One Day
Prerequisites: Windows 7: Level 1

What's in Photoshop CS5: Level 1:

Photoshop CS5: Basic, First Look Edition, is the first in a series of ILT courses that provide instruction on how to use Photoshop CS5 to create professional-looking images for both print and the Web. In this course, students will learn about image copyright, identify the components of the Photoshop environment, learn about the differences between raster and vector graphics, and learn how to use Adobe Bridge. Students will explore various methods of selecting image areas and will learn how to modify and manipulate selections. In addition, students will learn how to work with text, layers, and layer effects; how to adjust, retouch, and resize images; and how to prepare images for printing and the Web.

Why Photoshop CS5: Level 1

- Adobe Approved Content

Topic-Level Outline

Unit 1 : Getting started

Topic A: Image copyrights

- A-1: Discussing copyrights

Topic B: Digital images

- B-1: Discussing digital imagery
- B-2: Identifying attributes of raster and vector graphics

Topic C: The Photoshop environment

- C-1: Exploring the Photoshop window
- C-2: Organizing Photoshop panels
- C-3: Magnifying and scrolling images
- C-4: Managing files with Adobe Bridge

Topic D: Getting help

- D-1: Using Photoshop Help

Unit 2 : Working with image selections

Topic A: Selection techniques

- A-1: Selecting rectangular and elliptical areas
- A-2: Selecting with the Lasso tool
- A-3: Saving and loading a selection
- A-4: Selecting polygonal areas
- A-5: Selecting with the Magnetic Lasso tool
- A-6: Selecting with the Quick Selection tool
- A-7: Selecting with the Magic Wand tool
- A-8: Selecting with the Colour Range command

Topic B: Modifying selections

- B-1: Adding to and subtracting from a selection
- B-2: Modifying a selection
- B-3: Using the Refine Edge dialog box
- B-4: Moving a selection

Unit 3 : Working with layers

Topic A: Creating layers

- A-1: Creating a layer from a selection
- A-2: Moving a selection to another image
- A-3: Creating and filling empty layers

Topic B: Modifying layers

- B-1: Working with multiple layers
- B-2: Transforming layers

Topic C: Using type layers

- C-1: Adding text to an image
- C-2: Adding paragraph text to an image
- C-3: Formatting text

Topic D: Using layer effects

- D-1: Adjusting opacity
- D-2: Applying layer blending modes
- D-3: Applying layer styles

Unit 4 : Adjusting images

Topic A: Image modes

- A-1: Identifying image mode attributes
- A-2: Specifying an image mode

Topic B: Hue and saturation adjustments

- B-1: Colorizing an image
- B-2: Changing hue and saturation with an adjustment layer

Topic C: Levels adjustments

- C-1: Creating a Levels adjustment layer
- C-2: Creating a clipped adjustment layer

Unit 5 : Retouching images

Topic A: Repairing image defects

- A-1: Fixing red eye
- A-2: Cloning image areas

- A-3: Repairing small defects with the Spot Healing Brush tool
- A-4: Repairing medium-sized defects with the Healing Brush tool
- A-5: Repairing large defects with the Patch tool

Topic B: Removing image areas

- B-1: Preparing an image before removing a background
- B-2: Removing a complex background
- B-3: Using Content-Aware Fill to delete a selection

Topic C: Painting

- C-1: Specifying foreground and background colours
- C-2: Sampling colours with the Eyedropper tool
- C-3: Painting in an image

Topic D: Using filters

- D-1: Applying filters

Unit 6 : Resizing images

Topic A: Image resolution

- A-1: Viewing an image's resolution
- A-2: Resizing an image without resampling
- A-3: Resampling an image

Topic B: Image canvas size

- B-1: Cropping an image
- B-2: Changing the canvas size

Unit 7 : Preparing finished images

Topic A: Images for Web use

- A-1: Saving an image for Web use
- A-2: Generating an HTML-based Web photo gallery

Topic B: Images for print use

- B-1: Flattening image layers
- B-2: Saving in TIFF format

Topic C: Printing images

- C-1: Printing an image

Topic D: Importing images

- D-1: Importing images with Photo Downloader
- D-2: Creating a contact sheet
